

# LIONS CLUB YVELINES HERALDIC

**“We Serve”**

## **Why is our Club special?**

Lions Club Yvelines Heraldic (LCYH) is the only English-speaking Lions club in France. Our goals are to organize charitable projects to serve communities and to help people in need. We are of mixed gender and diverse nationalities, so we can act as a “welcome club” for visiting national and international Lions and potential members.

## **Why Yvelines?**

Most Lions clubs focus their efforts towards a local town. We at LCYH, however, cover the Paris western suburbs of the Yvelines prefecture where a large international community resides. Our meetings are currently held in Chambourcy (78) situated close to many of the International schools.

## **What do we do?**

In the friendly and busy atmosphere of our monthly club meetings, we undertake to use our professional experience, talents, time, and good humour on projects to help those in need.

These activities can be local or international fund-raising events or take the form of personal, hands-on help. Naturally, our projects are in line with other French Lions Clubs and within the guidelines and ethics of Lions Club International.

## Some of our projects in images

## What is Lions International?

The world's largest service club; we have more than 1.4 million members in 200 countries. In the past year, the Lions Club International Foundation (LCIF) has given over \$6m in grants to address the COVID-19 pandemic, responding to the immense challenges facing humankind.

## What about you?

If you feel that life has been kinder to you than many others, perhaps this is an opportunity to join the world's largest service club and hence combine your effort with like-minded individuals to ease the burden of those less fortunate. In the hope that our diversity and international reach will ignite your interest, we look forward to meeting you.
